# How TEST4U works

**TEST4U** is an interactive test that automatically assesses candidate's answer to a question.

# Distinct Subcategories

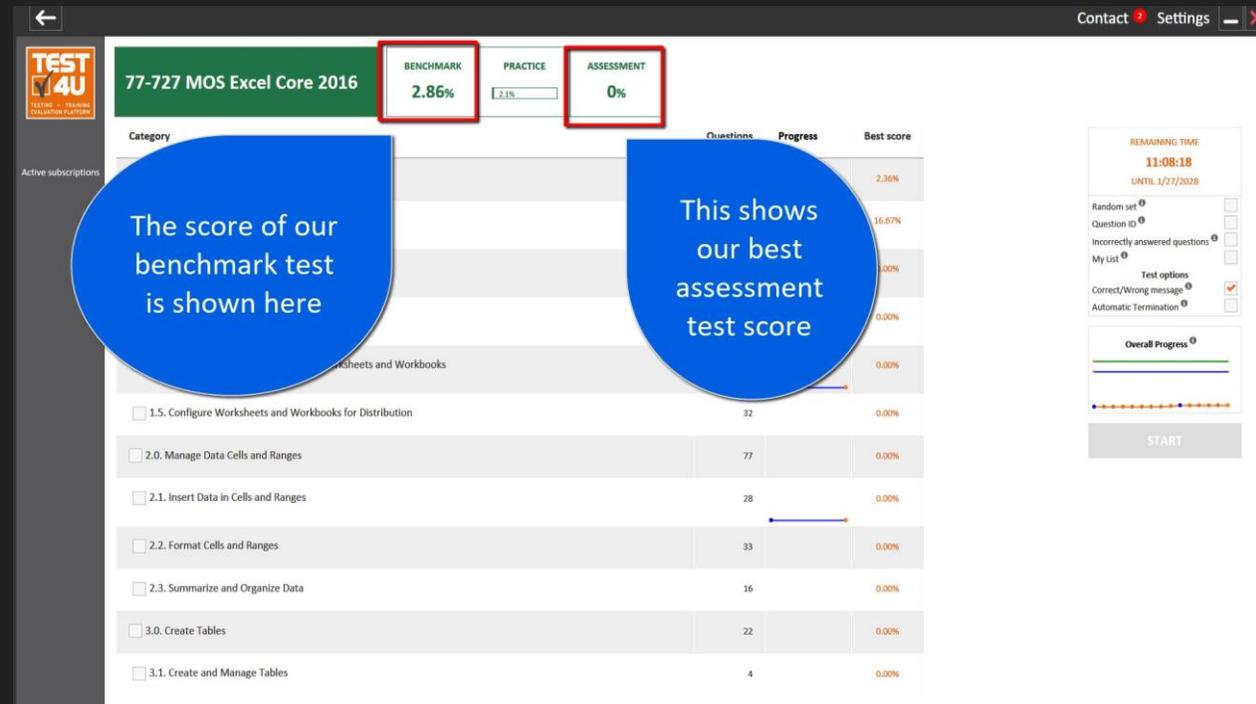

- Questions appear in distinct subcategories for targeted training.
- Each category displays:
  - The Number of questions
  - A Sparkline graph of your progress
  - Your Best Performance

The screenshot displays the TEST 4U interface for the '77-727 MOS Excel Core 2016' assessment. At the top, there are tabs for 'BENCHMARK' (2.86%), 'PRACTICE' (3.1%), and 'ASSESSMENT' (0%). Below this is a table of subcategories, each with a checkbox, a name, a question count, and a progress indicator (a small bar chart or sparkline). A blue callout bubble with the text 'Question subcategories are shown here.' points to the table.

Category	Questions	Progress	Best score
<input type="checkbox"/> 1.0. Create and Manage Worksheets and Workbooks	127		2.36%
<input type="checkbox"/> 1.1. Create Worksheets and Workbooks	18		
<input type="checkbox"/> 1.2. Navigate through Worksheets and Workbooks	22		
<input type="checkbox"/> 1.3. Format Worksheets and Workbooks	22		
<input type="checkbox"/> 1.4. Customize Options and Views for Worksheets and Workbooks	33		
<input type="checkbox"/> 1.5. Configure Worksheets and Workbooks for Distribution	32		
<input type="checkbox"/> 2.0. Manage Data Cells and Ranges	77		
<input type="checkbox"/> 2.1. Insert Data in Cells and Ranges	28		0.00%
<input type="checkbox"/> 2.2. Format Cells and Ranges	33		0.00%
<input type="checkbox"/> 2.3. Summarize and Organize Data	16		0.00%
<input type="checkbox"/> 3.0. Create Tables	22		0.00%
<input type="checkbox"/> 3.1. Create and Manage Tables	4		0.00%

# Benchmark and Assessment tests

- The first time you open your course a **benchmark** test will begin to give you an idea of your initial level. The time spent in the benchmark test doesn't count in your subscription time.
- After you have completed your training you can run 2 **assessment** tests (with new questions). These tests have a time limit just like the exams.

# Uses real applications

- **TEST4U** implementation is based on real application software.

**TEST4U** is not a simulation application.

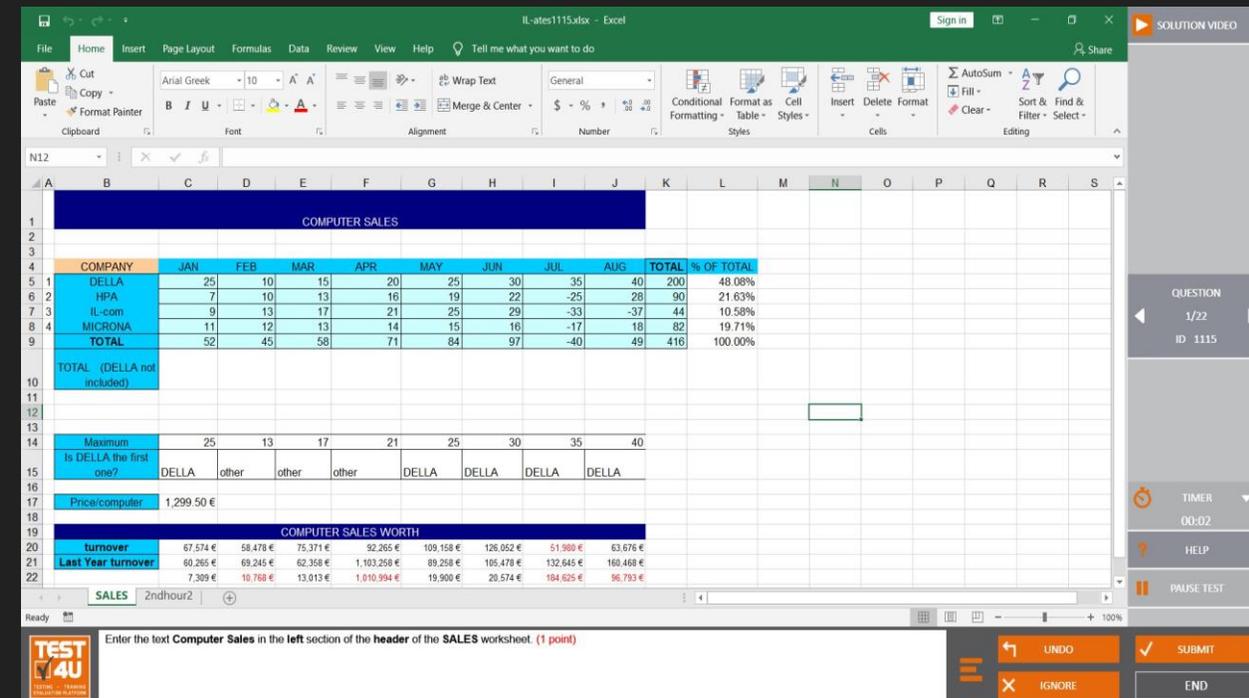

So, training on Microsoft Office 2019 requires Microsoft Office 2019 installed on the computer.

## How TEST4U works

# Uses real applications

- Full functionality of Microsoft Office suite for proper training.
- Allows the candidate to choose the way to answer
  - TEST4U assesses the result, not the steps

The screenshot shows a Microsoft Excel spreadsheet titled 'IL-ates1115.xlsx'. The spreadsheet contains a table of computer sales data for various companies (DELLA, HPA, IL-com, MICRONA) across months (JAN to AUG) and a 'TOTAL' column. Below the table, there are summary statistics like 'Maximum', 'Is DELLA the first one?', and 'Price:computer'. At the bottom, there is a 'COMPUTER SALES WORTH' table with columns for 'turnover' and 'Last Year turnover' across different years.

Overlaid on the bottom of the Excel window is the TEST4U interface. It includes a text input field with the instruction: "Enter the text Computer Sales in the left section of the header of the SALES worksheet. (1 point)". To the right of the input field are four buttons: UNDO, SUBMIT, IGNORE, and END. On the far right, there is a vertical sidebar with a 'QUESTION' section showing '1/22' and 'ID 1115', and a 'TIMER' section showing '00:02'. At the bottom of the sidebar are 'HELP' and 'PAUSE TEST' buttons.

# TEST4U assesses the result, not the way of answering questions!

- **TEST4U** means:
  - Cooperating with real applications
  - Training on Live questions
  - Assessment of the result,
  - Regardless of the way of answering

LIVE Questions  
(or in-ates questions)

vs

Simulation  
(flash, shockwave)

# A solution video for every question

- Correct Answer?
  - You have the option to moves on to the next question or watch a brief video-solution
- Incorrect Answer?
  - You have the option to moves on to the next question or watch a brief video-solution with the steps you should have taken.

The screenshot displays the TEST4U user interface. At the top left, there are desktop icons for 'TEST4U', 'Recycle Bin', 'it-notes', and 'TEST4Ufol...'. The main content area features a green window titled 'TEST4U ID:1115' with a dog image on the left and the text 'CORRECT' on the right. Below the text are three buttons: 'TRY AGAIN' (with a refresh icon), 'SOLUTION VIDEO' (with a play icon), and 'CONTINUE' (with a double arrow icon). A small link at the bottom right of the window says '> Click here to send your comments about this question (in a new window, typing letters etc.)'. At the bottom left of the window is an 'Add to my List' button. The right sidebar contains a 'SOLUTION VIDEO' button at the top, followed by 'QUESTION 1/22 ID: 1115', a 'TIMER' set to '00:38', and buttons for 'HELP' and 'PAUSE TEST'. The bottom of the interface shows a question prompt: 'Enter the text Computer Sales in the left section of the header of the SALES worksheet. (1 point)'. At the bottom right, there are buttons for 'UNDO', 'SUBMIT', 'IGNORE', and 'END'.

# Student statistics

- **TEST4U** provides full range of statistics to check the performance of each student or each class.

Tests						
Subcategory		Score	Duration	Date		
Copy - Paste		85.71%	02:43	09/07/2013 17:09		
Results						
A/A	ID	Duration	Question type	Question text	Result	
1	4380	00:09	In application	Delete the first line of the document	✘	
2	4379	00:18	In application	Move the text 888 Vas.Olgas under the text Thessaloniki 54645	✔	
3	4384	00:31	In application	Copy the text INFOWhat is the only computer school from the open document IL-ates and paste it to the already open Notepad application.	✔	
4	4381	00:32	In application	Copy all contents of the current document 1111111111 on the second page of the other document 2222222222. The second document is already opened.	✔	
5	4383	00:31	In application	Cut the phrase INFOWhat is the only computer school from the already open document IL-ates and paste it to the Notepad.	✔	
6	4382	00:25	In application	Cut the phrase INFOWhat is the only computer school from the already open document IL-ates and paste it to the open document Notes.	✔	
7	4378	00:17	In application	Copy the text 888 Vas.Olgas and insert it right under the text Thessaloniki 54645.	✔
