How TEST4U works

TEST4U is an interactive test that automatically assesses candidate's answer to a question.

Distinct Subcategories

- Questions appear in distinct subcategories for targeted training.
- Each category displays information for:
 - Number of questions
 - Best Performance

The screenshot shows the TEST4U interface with a list of categories and their performance metrics. A blue callout box highlights the 'Categories' section, stating: 'Question subcategories are displayed in this box.' The categories list includes: Open, Create, Save; Application settings; Insert, Find, Select text; Copy - Paste; Text Format; Paragraph Format; Tabs; Bullets and Numbering; Borders and Shade; Page Setup; Print; Headers and footers; Insert Page break and Fields; Pictures, Clip Art, Shapes; Tables. The performance metrics table shows the number of questions and the best performance percentage for each category.

Number of questions	Best Performance
24 questions	99,20%
7 questions	100,00%
27 questions	100,00%
7 questions	99,00%
23 questions	65,00%
26 questions	100,00%
13 questions	97,00%
10 questions	100,00%
6 questions	100,00%
3 questions	92,00%
15 questions	100,00%
9 questions	100,00%
4 questions	100,00%
11 questions	89,00%
31 questions	100,00%

Additional interface elements include: 'Exit X' button, 'Statistics' and 'Settings' tabs, 'BASIC | Microsoft | Word | TEST4U' breadcrumb, 'Categories [244 questions]' header, 'Remaining time 08:36:20', and a bottom navigation bar with 'Categories', 'Incorrect answered questions', 'Random set', and 'Question ID' buttons.

Uses real applications

- **TEST4U** implementation is based on real application software.

TEST4U is not a simulation application.

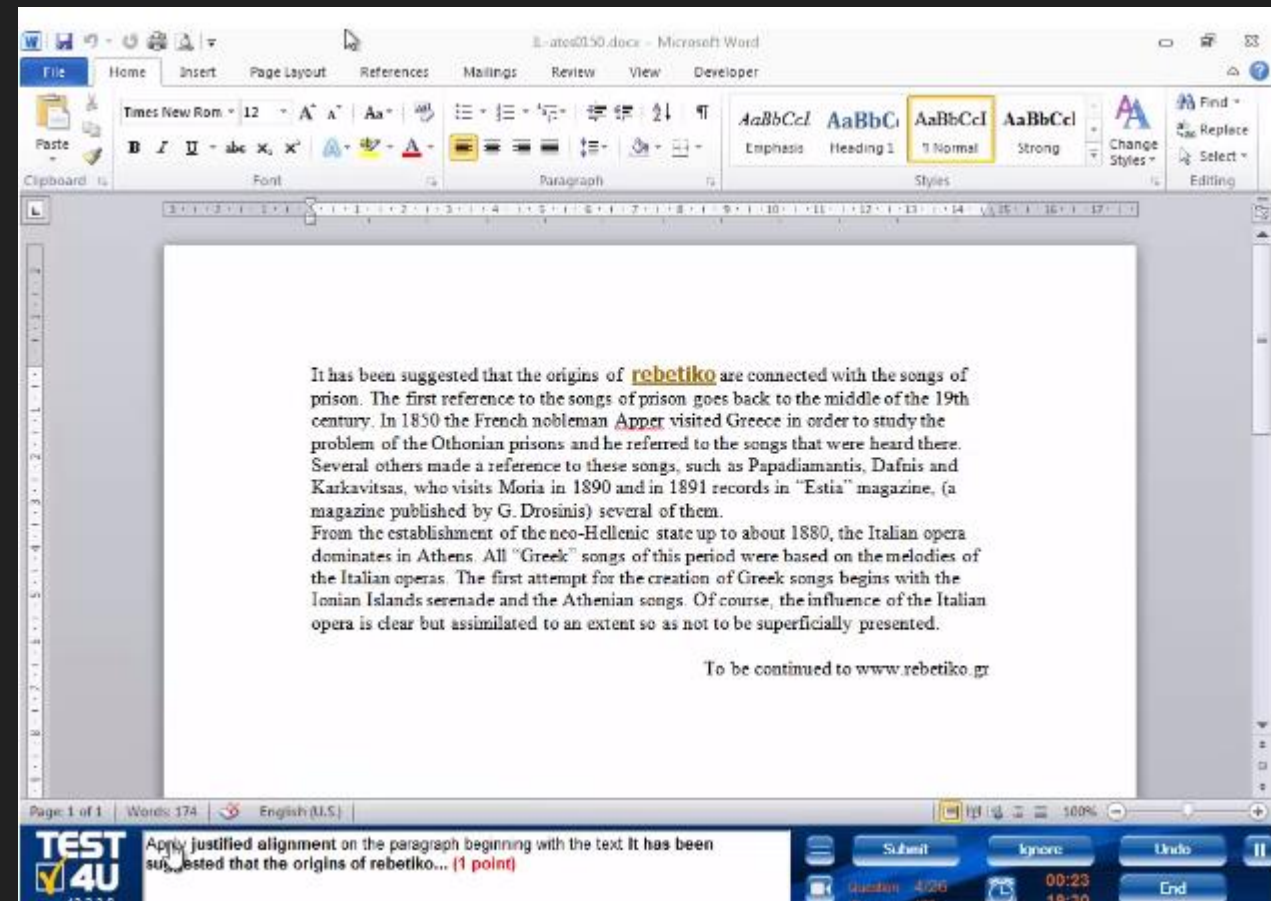

So, training on Microsoft Office 2013 requires Microsoft Office 2013 installed on the computer.

How TEST4U works

Uses real applications

- Full functionality of Microsoft Office suite for proper training.
- Allows the candidate to choose the way to answer
 - TEST4U assesses the result, not the steps

TEST4U assesses the result, not the way of answering questions!

- **TEST4U** means:
 - Cooperating with real applications
 - Training on Live questions
 - Assessment of the result,
 - Regardless of the way of answering

LIVE Questions
(or in-ates questions)

vs

Simulation
(flash, shockwave)

A solution video for every question

- Right Answer?
 - TEST4U moves on to the next question
- Wrong Answer?
 - TEST4U asks to display a brief video-solution with the steps the candidate should have taken.

The screenshot shows a desktop environment with a blue background. In the top-left corner, there is a small TEST4U icon. The main focus is a window titled "TEST4U ID:162". Inside this window, the TEST4U logo is displayed at the top, followed by a red "X" and the word "incorrect". Below this, there is an "OK" button with a mouse cursor hovering over it. At the bottom of the window, there are three links: "Click here to run the question again", "Click here to type your question", and "Click here to send your comments about this question (e.g error in question, typing errors etc.)".

At the bottom of the screen, there is a taskbar with several icons. On the left, there is a TEST4U logo and the version number "12.2.3.0". In the center, there is a text box containing the question: "Apply justified alignment to the second paragraph, indentation of the first line in 0.5", line spacing in 1.5 lines and adjust spacing from the first paragraph (spacing before) to 10 points. (1 point)". On the right, there is a status bar showing "Question ID 5/26 -162", the time "01:27 19:30", and the date "2:46 μμ 3/1/2014".

Student statistics

- **TEST4U** provides full range of statistics to check the performance of each student or each class.

Tests						
Subcategory		Score	Duration	Date		
Copy - Paste		85.71%	02:43	09/07/2013 17:09		
Results						
A/A	ID	Duration	Question type	Question text	Result	
1	4380	00:09	In application	Delete the first line of the document	✘	
2	4379	00:18	In application	Move the text 888 Vas.Olgas under the text Thessaloniki 54645	✔	
3	4384	00:31	In application	Copy the text INFOWhat is the only computer school from the open document IL-ates and paste it to the already open Notepad application.	✔	
4	4381	00:32	In application	Copy all contents of the current document 1111111111 on the second page of the other document 2222222222. The second document is already opened.	✔	
5	4383	00:31	In application	Cut the phrase INFOWhat is the only computer school from the already open document IL-ates and paste it to the Notepad.	✔	
6	4382	00:25	In application	Cut the phrase INFOWhat is the only computer school from the already open document IL-ates and paste it to the open document Notes.	✔	
7	4378	00:17	In application	Copy the text 888 Vas.Olgas and insert it right under the text Thessaloniki 54645.	✔
